Salman Zahoor, M.D., Joins UAMS as Neurologist

LITTLE ROCK — Salman Zahoor, M.D., has joined the University of Arkansas for Medical Sciences (UAMS) as a fellowship-trained neurologist specializing in epilepsy.

He sees patients at the UAMS Health Epilepsy and Neurology Clinic in Freeway Medical Tower, Suite 605, 5800 W. 10th St., just off Interstate 630 in Midtown Little Rock.

Appointments are accepted through physician referral faxed to 505-603-1539. The clinic number is 686-5838. For more information, visit uamshealth.com/expertise/neurology.

The multidisciplinary epilepsy team includes three fellowship-trained epilepsy physicians, a functional neurosurgeon, a specially trained advanced practice registered nurse (APRN) and registered nurses (RNs). Any needed surgical procedures are supported by the nearby main UAMS campus, which houses the only adult level 4 Epilepsy Center in the state, the highest accreditation available from the National Association of Epilepsy Centers and recognition that UAMS can provide all types of epilepsy evaluation, care, monitoring and surgery.

Zahoor provides comprehensive care for adults with epilepsy by incorporating the latest diagnostic techniques to make individualized treatment plans, including medications and surgeries where appropriate.

Zahoor is a board-certified neurologist with fellowship training in clinical neurophysiology and the management of epilepsy. He graduated from Rawalpindi Medical College in Pakistan. He completed his neurology residency at Henry Ford Hospital in Detroit, Michigan, where he was chief resident. He completed fellowships in clinical neurophysiology and epilepsy at Vanderbilt University Medical Center in Nashville, where he served as a chief fellow.

He also is an assistant professor in the Department of Neurology in the UAMS College of Medicine.

UAMS is the state's only health sciences university, with colleges of Medicine, Nursing, Pharmacy, Health Professions and Public Health; a graduate school; hospital; a main campus in Little Rock; a Northwest Arkansas regional campus in Fayetteville; a statewide network of regional campuses; and seven institutes: the Winthrop P. Rockefeller Cancer Institute, Jackson T. Stephens Spine & Neurosciences Institute, Harvey & Bernice Jones Eye Institute, Psychiatric Research Institute, Donald W. Reynolds Institute on Aging, Translational Research Institute and Institute for Digital Health & Innovation. UAMS includes UAMS Health, a statewide health system that encompasses all of UAMS' clinical enterprise including its hospital, regional clinics and clinics it operates or staffs in cooperation with other providers. UAMS is the only adult Level 1 trauma center in the state. *U.S. News & World Report* named UAMS Medical Center the state's Best Hospital; ranked its ear, nose and throat program among the top 50 nationwide; and named six areas as high performing — cancer, colon cancer surgery, heart failure, hip replacement, knee replacement and lung cancer surgery. UAMS has 2,727 students, 870 medical residents and five dental residents. It is the state's largest public employer with more than 10,000 employees, including 1,200 physicians who provide care to patients at UAMS, its regional campuses, Arkansas Children's Hospital, the VA Medical Center and Baptist Health.
