**UAMS, Local Pharmacies Partner to Provide
Community Health Workers in Desha County**

FAYETTEVILLE – Brandi Gilliam and Isierene Brown were hired recently through a partnership between the University of Arkansas for Medical Sciences (UAMS) and local pharmacies to help people in Desha County navigate the health care system.

As embedded community health workers, Gilliam and Brown are available to answer basic health care questions and provide education and resources to the public. Community health workers work within their communities to help the public get the care they need and answer essential health care-related questions, such as when someone should see a doctor. They also can provide valuable information about vaccines.

“We are so pleased to work with Brandi and Isierene to provide the people of Desha County with a new resource as we enter the next, and hopefully final, stage of the COVID-19 pandemic,” said Stephanie Kruger, associate director of Community Programs in the UAMS Office of Community Health & Research. “We’re also excited to work with McGehee Family Pharmacy, Dumas Family Pharmacy and the Desha County community as we work to create a better state of health for all people in Arkansas.”

Gilliam is a 2004 graduate of Drew Central High School and has spent more than 14 years working as a pharmacy technician.

“I’m grateful for the opportunity to help educate and aid my community,” Gilliam said. “I take great pride in the responsibility awarded to me to help my community receive the care and assistance needed.”

To contact Gilliam with health- or vaccine-related questions, call 870-222-6676 or visit McGehee Drug Company at 1007 Highway 65 South in McGehee. To contact Brown, visit Dumas Family Pharmacy at 301 Highway 65 South in Dumas or call 870-382-0500.

For more information about the UAMS Community Health Worker project, visit nwa.uams.edu/chr/chw. For more information about COVID-19, including resources, mobile vaccine events and education, visit nwa.uams.edu/covid.

This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$9,892,799 with 0 percentage financed with non-governmental sources.

UAMS is the state's only health sciences university, with colleges of Medicine, Nursing, Pharmacy, Health Professions and Public Health; a graduate school; a hospital; a main campus in Little Rock; a Northwest Arkansas regional campus in Fayetteville; a statewide network of regional campuses; and seven institutes: the Winthrop P. Rockefeller Cancer Institute, Jackson T. Stephens Spine & Neurosciences Institute, Harvey & Bernice Jones Eye Institute, Psychiatric Research Institute, Donald W. Reynolds Institute on Aging, Translational Research Institute and Institute for Digital Health & Innovation. UAMS includes UAMS Health, a statewide health system that encompasses all of UAMS' clinical enterprise. UAMS is the only adult Level 1 trauma center in the state. *U.S. News & World Report* recognized UAMS Medical Center as a Best Hospital for 2021-22; ranked its ear, nose and throat program among the top 50 nationwide for the third year; and named five areas as high performing — colon cancer surgery, diabetes, hip replacement, knee replacement and stroke. UAMS has 3,047 students, 873 medical residents and fellows, and six dental residents. It is the state's largest public employer with more than 11,000 employees, including 1,200 physicians who provide care to patients at UAMS, its regional campuses, Arkansas Children's, the VA Medical Center and Baptist Health. The UAMS Northwest Regional Campus includes 288 medical, pharmacy, nursing and health professions students, 64 medical and pharmacy residents, two sports medicine fellows, and 1,000 community-based faculty. The campus has nine clinics including a student-led clinic and physical, occupational and speech therapy. Faculty conduct research to reduce health disparities.
