**UAMS, Mitchell’s Park Street Pharmacy Partner  
to Provide Community Health Worker in Izard County**

FAYETTEVILLE – Whitney Beard, of Calico Rock, was hired recently through a partnership between the University of Arkansas for Medical Sciences (UAMS) and Mitchell’s Park Street Pharmacy to help people in Izard County navigate the health care system.

As an embedded community health worker, Beard is available to answer basic health care questions and provide education and resources to the public. Community health workers work within their communities to help the public get the care they need and answer essential health care-related questions, such as when someone should see a doctor. They also can provide valuable information about vaccines.

“We are so pleased to work with Whitney to provide the people of Izard County with a new resource as we enter the next, and hopefully final, stage of the COVID-19 pandemic,” said Stephanie Kruger, associate director of Community Programs in the UAMS Office of Community Health & Research. “We’re also excited to work with Mitchell’s Park Street Pharmacy and the Izard County community as we work to create a better state of health for all people in Arkansas.”

Beard previously worked as a licensed practical nurse (LPN) before joining the Izard County Medical Center, where she worked within the center’s stroke awareness program while continuing her education toward becoming a registered nurse. She has more than 10 years serving her community.

“It’s my honor to serve as a community health worker at Mitchell’s Park Street Pharmacy,” Beard said. “I’m able to use my training as a nurse to help patients navigate the health care system, which sometimes can be confusing. I’m available to talk about your medications, answer questions or just talk about your concerns.”

Mitchell’s Park Street Pharmacy is located at 526 Park St. in Calico Rock, and is open Monday-Friday from 8:30 a.m.-5 p.m., and from 9:30 a.m.-noon on Saturdays. To

contact Beard with health- or vaccine-related questions, visit the pharmacy or call 870-297-8107.

For more information about the UAMS Community Health Worker project, visit [nwa.uams.edu/chr/chw](http://nwa.uams.edu/chr/chw). For more information about COVID-19, including resources, mobile vaccine events and education, visit [nwa.uams.edu/covid](http://nwa.uams.edu/covid).

This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$9,892,799 with 0 percentage financed with non-governmental sources.

UAMS is the state's only health sciences university, with colleges of Medicine, Nursing, Pharmacy, Health Professions and Public Health; a graduate school; a hospital; a main campus in Little Rock; a Northwest Arkansas regional campus in Fayetteville; a statewide network of regional campuses; and seven institutes: the Winthrop P. Rockefeller Cancer Institute, Jackson T. Stephens Spine & Neurosciences Institute, Harvey & Bernice Jones Eye Institute, Psychiatric Research Institute, Donald W. Reynolds Institute on Aging, Translational Research Institute and Institute for Digital Health & Innovation. UAMS includes UAMS Health, a statewide health system that encompasses all of UAMS' clinical enterprise. UAMS is the only adult Level 1 trauma center in the state. *U.S. News & World Report* recognized UAMS Medical Center as a Best Hospital for 2021-22; ranked its ear, nose and throat program among the top 50 nationwide for the third year; and named five areas as high performing — colon cancer surgery, diabetes, hip replacement, knee replacement and stroke. UAMS has 3,047 students, 873 medical residents and fellows, and six dental residents. It is the state's largest public employer with more than 11,000 employees, including 1,200 physicians who provide care to patients at UAMS, its regional campuses, Arkansas Children's, the VA Medical Center and Baptist Health. The UAMS Northwest Regional Campus includes 288 medical, pharmacy, nursing and health professions students, 64 medical and pharmacy residents, two sports medicine fellows, and 1,000 community-based faculty. The campus has nine clinics including a student-led clinic and physical, occupational and speech therapy. Faculty conduct research to reduce health disparities.
