**UAMS Brain Injury Program to Offer
Free Virtual Workshop May 24**

LITTLE ROCK — The [UAMS Institute for Digital Health and Innovation's Brain Injury Program](#) will host a virtual workshop, "The Dating Game — Navigating Dating after a Brain Injury," May 24 to connect anyone affected by a traumatic brain injury (TBI) to helpful resources and support.

The virtual event is free, open to the public and will be held from noon to 2 p.m. To register and receive the Zoom link, call 501-526-7656 or visit their [Eventbrite page](#).

The Institute for Digital Health and Innovation's Brain Injury Program has partnered with several entities throughout the state to provide educational and professional resources for people living with a TBI, including information for their family members, caregivers and health care providers.

Workshop attendees will learn about free resources, digital health clinics, a free 24/7 TBI nurse triage call center, virtual TBI support groups and more. In addition to interactive discussions, the keynote speaker, Kim Johnson, OTR/L, will discuss strategies for dating after a traumatic brain injury.
